

Ref No. : 4458

Date : October 4, 2015

SUBJECT : Legal Action for Unfit Electronic Balance

Dear Valuable Shop Owner,

Please be informed that starting from **28th of February year 2016**, all **UNFIT electronic balances shall be totally removed from service** or otherwise you can be legally penalized for violating the Federal laws & regulations.

During the legal verification of electronic balances, one of the most important things we are verifying is the classification of your electronic balance as per the OIML International Standard. In case your electronic balance is out of tolerance as per the requirements of OIML, your balance will be treated as **UNFIT BALANCE**.

Below shows an example how to determine whether your balance is **Fit** or **Unfit** for Use.

Capacity of the Balance = **Minimum 600 g**

Readability of the Balance (d) = **0.01 g** and Verification Scale Interval (e) = **10d**

S/N	Readability of Balance (d)	Verification Scale Interval (e)	Tolerance for (d)	Tolerance for (e)	Remarks
1	0.1 g	1 g	Min 0.01 g	10 x 0.1 = 1 g	UNFIT for Use
2	0.01 g	0.1 g	Min 0.01 g	10 x 0.01 = 0.1 g	FIT for Use
3	0.001 g	0.1 g	Min 0.01 g	10 x 0.001 = 0.01 g	UNFIT for Use

For further clarifications or any inquiries, please contact Eng. Ariel Garcia on:

Tel No. : 04-3027171 / 04-3027378

Fax No. : 04-3027203

E-mail : LEGAL.METROLOGY@dm.gov.ae / ARGARCIA@dm.gov.ae

This is for your guidance and strict compliance.

Thanks and best regards.
